SUMMARY

Senior frontend engineering engineer with 7 years of experience architecting and delivering enterprise solutions. Expert in Python, HTML, JavaScript with demonstrated leadership in cross-functional teams.

WORK EXPERIENCE

Frontend Developer 2023-07 — Present

Notion (full-time)

Built reusable component library using Render, used by 500+ developers
Integrated third-party APIs using Astro, reducing integration time by 64%
Developed design system using Vercel, standardizing UI across 1000+ applications
Created accessible UI components using Render, achieving WCAG AA compliance

Full-Stack Developer 2019-06 — 2023-05

Nvidia (full-time)

Created accessible UI components using Git, achieving WCAG AA compliance
Integrated third-party APIs using Git, reducing integration time by 30%
Built interactive data visualizations using Svelte, serving 10000+ daily users
Built interactive data visualizations using Astro, serving 100+ daily users

EDUCATION

Ph.D. in Software Engineering 2018

University of Toronto

M.Eng. in Electrical Engineering 2017

University of Melbourne — GPA: 3.33

SKILLS

Python, HTML, JavaScript, CSS, Remix, Svelte, React, Cypress, Prettier, Jest, Supabase, MongoDB, IndexedDB, PostgreSQL, Netlify, Render, Vercel, Cloudflare Pages, Agile, Accessibility (WCAG), Responsive Design, Progressive Web Apps, Component-Driven Development

PROJECTS

Task Scheduler (*Svelte, Remix, React*)

Created Real-time Chat leveraging Remix for core functionality and Svelte for optimization

Token Bucket Limiter (*JavaScript, Remix, React*)

Designed Real-time Chat leveraging Remix microservices architecture with JavaScript for caching

ADDITIONAL

Hobby: Reading sci-fi novels

Hobby: Music production
