

Gregory Brown

gregory.brown@brown.dev | +1-544-422-5831 | Port Troy, Japan
<https://linkedin.com/in/gregory-brown> | <https://github.com/gregorybrown>

SUMMARY

Lead data science / ml / ai professional with 9 years driving technical strategy and team excellence. Expert in R, Go, MATLAB with track record of building and scaling engineering teams.

WORK EXPERIENCE

LLM Engineer

2024-01 — Present

ParseLab (full-time)

Designed data warehousing solution using Statistical Modeling, enabling analytics on 100000+ records

Built real-time analytics dashboard using LLM Evaluation, used by 10000+ stakeholders

Established MLOps practices using LLM Evaluation, reducing model deployment time by 38%

Research Scientist

2021-10 — 2023-11

ParseLab (full-time)

Implemented NLP solution using SQL, processing 100000+ text documents daily

Built end-to-end ML pipeline using Azure ML, processing 10000+ samples daily

Developed computer vision models using Qdrant, achieving 48% accuracy

Research Scientist

2017-03 — 2021-09

Stripe (full-time)

Built end-to-end ML pipeline using MLflow, processing 5000+ samples daily

Developed data visualization tools using Snowflake, used by 50000+ analysts

Designed data warehousing solution using OpenAI API, enabling analytics on 10000+ records

EDUCATION

B.Sc. in Mathematics

2018

University of Edinburgh — GPA: 3.57

SKILLS

R, Go, MATLAB, Hugging Face, JAX, LangChain, Keras, Neptune, NumPy, Airflow, Dask, Snowflake, Weaviate, ChromaDB, Lambda Labs, Databricks, AWS SageMaker, Bedrock, Azure ML, Computer Vision, Prompt Engineering, A/B Testing

ADDITIONAL

Volunteering: Volunteer coding instructor at Spencer-Wood Youth Program, 2022-Present
