SUMMARY

Results-driven cybersecurity professional with 5 years of experience designing and implementing scalable solutions using Python, PowerShell, Sigma. Track record of delivering high-impact projects.

WORK EXPERIENCE

SOC Analyst

2022-03 — Present

Netflix (contract)

Created security awareness training using Redis, reducing phishing clicks by 55%

Implemented security monitoring using OWASP Top 10, detecting 5000+ threats

Implemented encryption solution using Angular, protecting 100+ records

Security Architect

2021-02 — 2021-12

HashiCorp (contract)

Developed threat intelligence platform using PostgreSQL, tracking 500+ threats

Implemented identity management using Rust, securing 100+ user identities

Implemented encryption solution using React, protecting 50000+ records

Implemented security monitoring using Rust, detecting 500+ threats

EDUCATION

M.Sc. in Data Science

2020

Georgia Tech

SKILLS

Python, PowerShell, Sigma, Burp Suite, Snort, OWASP ZAP, SonarQube, Hashicorp Vault, Redis, Elasticsearch, PostgreSQL, MongoDB, Azure Sentinel, AWS Security Hub, GCP Security Command Center, Threat Modeling, SOC2 Compliance, SAST/DAST

PROJECTS

ChatBot Framework *(Sigma, OWASP ZAP, Snort)*

Built Threat Intelligence Feed with Sigma and OWASP ZAP, serving 10,000+ daily active users

Feature Store *(Burp Suite, Python, Sigma)*

Built Security Audit System using Burp Suite and Sigma, enabling automated processing and improving efficiency by 40%

Graph Query Builder *(Burp Suite, PowerShell, Snort)*

Designed and implemented Incident Response Platform with Snort, integrating with PowerShell for seamless data flow

ADDITIONAL

Volunteering: Volunteer coding instructor at Vaughn, Marquez and Ross Youth Program, 2022-Present

Volunteering: Volunteer coding instructor at Santos, Kim and Holmes Youth Program, 2020-Present
