RESEARCH INTERESTS

Engineering leader with deep technical background in HTML, Dart, and Next.js. 11 years of experience delivering enterprise-scale solutions.

EDUCATION

Purdue University M.Tech. in Artificial Intelligence	2014
McGill University M.Eng. in Data Science, GPA: 3.81	2012

PROFESSIONAL EXPERIENCE

Frontend Developer Created accessible UI components using Webpack, achieving WCAG AA compliance Integrated third-party APIs using MongoDB, reducing integration time by 67% Developed responsive web applications using Tailwind CSS, improving page load time by 42% Developed design system using Tailwind CSS, standardizing UI across 10000+ applications	, VectorDB Inc	2023-01 – Present
React Developer Developed responsive web applications using Playwright, improving page load time by 29% Created progressive web app using Jest, increasing user engagement by 63%	, Shopify	2020-01 – 2022-07
React Developer Developed responsive web applications using CSS, improving page load time by 36% Built reusable component library using Dart, used by 50000+ developers	, CodeReview.io	2016-08 – 2019-12
Web Developer Built interactive data visualizations using Vue.js, serving 500+ daily users Implemented state management solution using ESLint, reducing API calls by 43%	, ParseLab	2014-08 – 2016-04

TECHNICAL PROFICIENCIES

HTML, Dart, Next.js, Tailwind CSS, Playwright, Figma, Vite, MongoDB, PostgreSQL, Cloudflare Pages, Netlify, Accessibility (WCAG), Responsive Design, Component-Driven Development, Progressive Web Apps, Agile

SELECTED PROJECTS

Event Sourcing Engine [Next.js, Tailwind CSS, Dart] — Built Mobile Web App using Next.js and Dart, enabling automated processing and improving efficiency by 40%

Schema Validator [Dart, HTML, Tailwind CSS] — Created React Component Library leveraging HTML for core functionality and Dart for optimization

Graph Query Builder [Tailwind CSS, HTML, Next.js] — Implemented React Component Library using Tailwind CSS, achieving 99.9% uptime and handling 50k+ requests daily
