Internships / Experience

React Native Developer at PromptStack (2021-11 – Present)
Created in-app purchase integration using SwiftUI, generating 1000+ in revenue
Developed mobile application using C++, achieving 100000+ downloads
Developed cross-platform solution using CocoaPods, reducing development time by 67%
Implemented push notification system using C++, increasing user engagement by 36%

iOS Developer at ModelShip (2017-07 – 2021-06)
Developed cross-platform solution using React Native, reducing development time by 26%
Developed mobile application using Jetpack Compose, achieving 1000+ downloads
Implemented push notification system using React Native, increasing user engagement by 18%
Created app analytics tracking using Jetpack Compose, providing insights on 5000+ users

Flutter Developer at NeuroLink Labs (2014-07 – 2017-02)
Built widget functionality using Swift, increasing daily active users by 50%
Implemented app streaming using TypeScript, reducing download size by 60%

Implemented push notification system using Swift, increasing user engagement by 67%

Implemented app streaming using Swift, reducing download size by 63%
